

### What is it?

e-fleet is an online fleet management and reporting suite which allows you to **view live fleet information** anywhere in the world 24/7. Building on our unique multi-funder approach, e-fleet lets you **manage your entire fleet from one system** regardless of funder, including vehicles supplied by other fleet providers as well as your grey fleet (cash allowance).

### How will it help your business?

e-fleet provides immediate and unlimited access to your fleet information, whenever and wherever you need it. This **puts you firmly in control** and can help you reduce fleet administration costs.

### Why Fleet Alliance?

- e-fleet provides a powerful combination of **fleet management and reporting** tools in one place.
- You can access e-fleet at any time from anywhere in the world where there is internet access.
- e-fleet will help **reduce your fleet admin costs** and avoid unnecessary charges.
- Permission based access offers facilities for both fleet managers and drivers.

Features and benefits:

#### Fleet management

A complete range of tools to help improve contract management including:

- Online quotations
